

A&B Glass	
Revision: 2017	Effective: 27.01.2017

Environmental Policy Statement

A&B Glass Sudbury

A&B Glass Sudbury recognize their responsibilities to environmental protection and the prevention of pollution.

The Company will look to continually improve the E.M.S. and their environmental performance.

To develop and adopt technologies that reduce environmental impact.

To be considerate of our impact on our neighbours.

To integrate environmental management into decision making policies.

To comply with relevant environmental legislation and other requirements appertaining to the manufacture, installation and delivery of uPVC and Aluminium windows, doors, conservatories and IG sealed units.

Our main objectives and commitments are:

- 1) The monitoring and reduction in the use of energy throughout the business.
- 2) Reduction in the use of landfill.
- 3) To optimize the transport and distribution costs in the supply and installation of the products.

This statement will be communicated to all employees and sub-contractors through induction, awareness training and notice boards. The statement is made available to interested parties including the public via our respective web-sites and only includes the Sudbury site

Signed:

Paul McManus Group Finance Director
